## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

I. Claims 1-3, 6-9, 12-14, 17-20, 32-34, and 37-40 are rejected under 35 U.S.C. 102(e) as being anticipated by Kao et al. (US 6,535,513 B1) hereinafter Kao.

1. Regarding claims 1, 12, and 32 – Kao discloses means capable of receiving voice calls having TDM voice/fax, VoIP, VOATM and VOFR media types, said means for receiving a voice call having a first media type and a first signaling type corresponding to said first media type, means capable of converting voice calls to TDM voice/fax, VoIP, VOATM and VOFR media types, said means for converting said voice call to a second media type different than said first media type, means for relaying signaling associated with said voice call of said first signaling type to a second signaling type corresponding to said second media type, and means for forwarding said voice call having said second media type, refer to Figures 1, 2, and 6 and the

Art Unit: 2662

abstract and column 2 lines 4 to 24 and Table 1 (column 4) and column 3 lines 60 to 67 and column 4 lines 1 to 11.

2. Regarding claims 2, 13, and 33 – Kao discloses said means for receiving a voice call includes means for receiving said voice call at a first interface of said switch apparatus, said first interface being one of a broadband interface and a narrowband interface, and wherein said means for forwarding said voice call includes means for forwarding said voice call at a second interface of said switch apparatus, said second interface being one of said broadband interface and said narrowband interface, refer to Figure 2, callout 210 – broadband interface, callouts 202 and 204 – narrowband interfaces, and Figure 6 – narrowband interface and column 3 and column 4 lines 1 to 30.

3. Regarding claims 3, 14, and 34 – Kao discloses means for associating said voice call with a quality of service requirement that is specific to said voice call, refer to the abstract and column 2 lines 4 to 24.

4. Regarding claims 6, 17, and 37 – Kao discloses means for switching packets associated with said voice call between said first interface and said second interface, refer to Figure 2 and column 3 and column 4 lines 1 to 30.

5. Regarding claims 7, 8, 18, 19, and 38, 39 – Kao discloses means for converting said voice call into said packets having an intermediate switching media type, wherein said

Art Unit: 2662

intermediate switching media type is ATM cells, refer to Figure 2 (callout 208) and column 3 and column 4 lines 1 to 30.

6. Regarding claims 9, 20, and 40 – Kao discloses means for associating said voice call with a quality of service requirement, said means for switching packets associated with said voice call being adapted to switch said packets at a rate corresponding to said quality of service requirement, refer to the abstract and column 2 lines 4 to 24.

***Allowable Subject Matter***

Claims 4, 5, 10, 11, 15, 16, 21, 22, 35, 36, 41 and 42 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 23-31 are allowable over the prior art of record.

***Response to Arguments***

Applicant's arguments with respect to claims 1-3, 6-9, 12-14, 17-20, 32-34, and 37-40 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

1. Brown et al. (US 6,747,995 B1) discloses a system for multiple voice lines with data over a single subscriber loop.
